Cover and Claims

Please Select a Topic

#### Getting Started

A member of a pop band got arrested for malicious damage while on tour in Australia. Which of these graphics do you think represents an action that would be classed as malicious damage?

He hit a photographer's car with a rock when the photographer refused to hand over some photos

He smashed his own guitar on the stage in the middle of a concert

He knocked a vase off a table in his hotel room while carrying in his suitcase

Select the correct option. Then, click OK

01 of 22

Adobe Flash Player 9

### Insurance

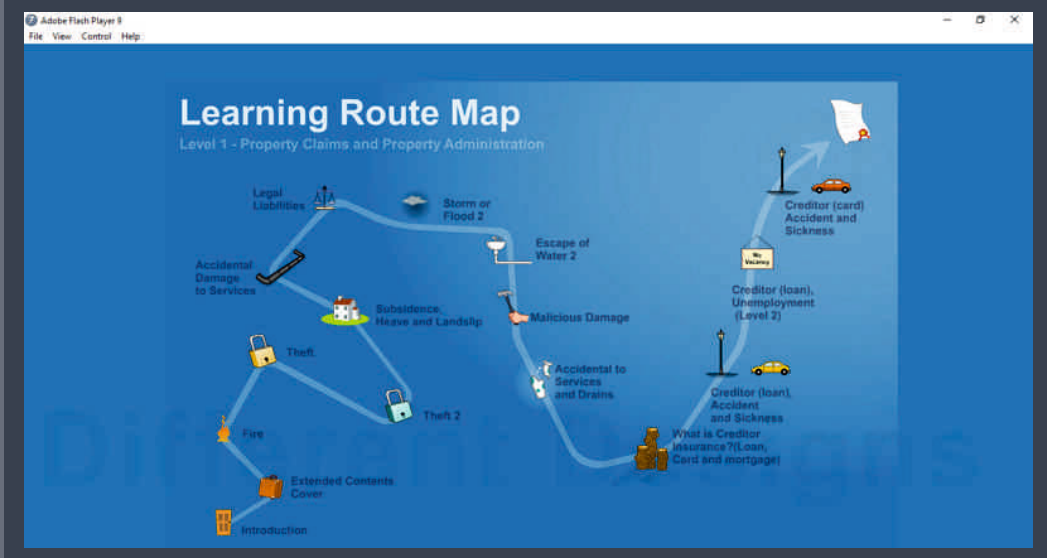

## Subsidence, Heave and Landslip

Get Started

Subsidence can be a source of very large claims for household insurers - it's important to be able to recognise it and know what to do with the claim.

This module will provide guidance on how to handle claims for subsidence, heave or landslip.

Educe™ Solutions Pvt Ltd is an organization founded in 2000 by professionals in the IT industry with an aim to achieve the true meaning of the word "Educe". "Educe" means an endeavor to "Develop Meaningful From Abstract". The word "Abstract" relates to concepts, ideas, complex requirements of the Customers.

Educe products are designed and developed with respect to the latest guidelines from the regulated pharmaceutical market. Implementation is immediate, rapid and repeatable at every location. We provide CD/CTD validation with a clear installation/Validation plan.

Educe is associated with ICH M3 (Bridge for eCTD) portability and compatibility.

**Core Competency**

- eCTD (US, EU, CA, AU, J)
- 21 CFR Part 11, Electronic Signatures
- Document Management Solutions (GMP Compliant)
- SPL Label Conversion
- ISD Simulation Software

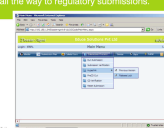

**Educe Solutions Pvt. Ltd.**

**Headquarters:**

AN ISO 9001: 2008 CERTIFIED COMPANY

It is a web-based Electronic Dossier Management System that automates and seamlessly manages your dossier compilation process.

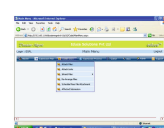

- It is designed specifically for the management of complex Submission life cycles using the ICH eCTD standards, including regional module 1 for ICH countries.
- It is available as an independent product and also seamlessly integrates with other products like DocsExecutive thereby providing an effective management of the entire regulatory document management lifecycle, from document creation all the way to regulatory submissions.

- Manages submissions for non-ICH countries with equal ease.
- Submission lifecycle management and consolidated submission reviews.
- Document templates with corresponding CTD sections and seamless bridge with DocsExecutive effectively reduces time taken for eCTD Collation.
- Dossier-mgmt eCTD software is fully validated with a track record of over 350 e-CTD submissions done successfully to EU, US countries.
- Product is constantly updated to meet latest Regulatory guidelines.

**FEATURE : 1**  
**Currently supported Specifications**

- Incorporates ICH e-CTD specifications ver 3.2 for M2-M5.
- Regional US version 2.01 for M1 modules.

- Regional EU version 1.1, 1.2, 1.3 specifications covering NP/MP categories.
- DMF/CEP/ANDA/BLA all with CTD format.

**Latest Release**

- STF (Study Tagging File) Version 2.2
- Developments Underway to be released soon Regional PIM Version 2.0 for European Centralized Submissions.
- Compatibility on Oracle 8i.

AN ISO 9001: 2008 CERTIFIED COMPANY

**FEATURE : 2**  
**Software Solution Architecture:**

It is 3-tier architecture with file server, Application/Submission Server and Database Server, Process servers.

a) File Server: Could be Linux based or Windows based. Here all files / content files reside. Application server interacts with this file server as and when required.

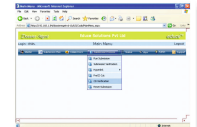

b) Application Server: Windows 2000/2003 web-based application with Clients using IE browser 6.0 and above. This server is used by multiple users to upload multiple dossier content files while working simultaneously on more than one product.

c) Submission Process Server: Could be hosted on the same Application server or for larger volumes a separate Xeon based Windows Server Machine is suggested. All the core process of submission and formation of e-CTD format is done here.

d) Database Server: Currently portable only to MS-SQL 2000 and 2005.

**FEATURE : 3**  
**User Interface Aspects**

- Web Browser based interface. Currently best viewed in IE 6.0 and IE 7.0 on Windows XP/Professional / Vista clients.
- Concurrent usage for the same Drug Product on different CTD sections.
- Context Sensitive help available for the user.
- Interlocking of processes for integrity and proper user messages.
- Detail Log reporting for every process.
- Multi-user system that allows simultaneous work on many products.

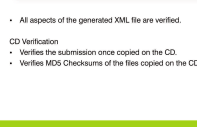

- Concurrent usage for the same Drug Product on different CTD sections.
- Context Sensitive help available for the user.
- Interlocking of processes for integrity and proper user messages.
- Detail Log reporting for every process.
- Multi-user system that allows simultaneous work on many products.

**FEATURE : 4**  
**Study Information**

- Additional module for managing BARBE Data to be used for eCTD preparation.
- Software handles USFDA released STF version 2.2 specification to do it.
- This is seamlessly integrated with the base XML format of the overall submission and the software guides the user in the whole process.

**FEATURE : 5**  
**Verification Tools**

- Submission Verification
- Integrated with the base engine, highlights possible problems in the submission.
- Specific checks at various levels also possible to highlight errors in the eCTD submission.
- Verifies the eCTD submission w.r.t the validations required by the specifications.

- All aspects of the generated XML file are verified.
- CD Verification
- Verifies the submission once copied on the CD.
- Verifies MD5 Checksums of the files copied on the CD.

#### Logo Dimensions

Brand Guidelines

##### Clear Space

The Unitedgrids logo requires clear space in order to maximize its presence. The clear space around the logo prevents any graphic element interfering with the integrity of the mark.

The clear space is measured by the width of the 'X'.

We recommend the space surrounding this should be 1X the width of the X.

##### Minimum Size

To maintain a clear and recognizable logo, we should have a minimum size. We recommend a size that is no smaller than 15mm wide.

In special circumstances where we need to use the Unitedgrids logo smaller than 15mm, we can remove the tag line underneath.

##### Tagline

On white background tagline shall be in black colour. On dark background tagline shall remain in brand yellow colour.

3

#### Logo Usage
